| <input type="checkbox"/> Property appraisal | <input type="checkbox"/> Roof system design | <input type="checkbox"/> Space planning / programming |

General Statement of Professional Experience (written by firm)

Dirigo Architectural Engineering, LLC is an engineering and construction management firm. In it's recent history, the team has completed several architectural engineering projects. Architectural engineering covers the broad spectrum of all commercial building functions, including structural analysis, HVAC design, electrical distribution system design, ADA compliance, and construction management/contract administration. Dirigo A/E brings a broad spectrum of experience in new construction, renovations, and historic building projects. Additionally, we have a LEED Accredited Professional (LEED AP) on staff to integrate green strategies into our designs. We serve several commercial clients providing architectural engineering services for small to medium-sized maintenance projects as well as construction oversight and management.
